DETAILED ACTION

Election/Restrictions

Claims 17-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. The election was made **without** traverse in the reply filed on August 30, 2004.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 and 11-14 are rejected under 35 USC 102(b) as being anticipated by U.S. Patent No. 5,662,651 to Tornier et al. Tornier discloses in Fig. 1 a fixation device 2 comprising a shaft 2, a head 2b, a guide 2f and a securing element 5. The device comprises a second guide 3b, which also forms a part of the fixation device. The intermediate section has a diameter larger than the threaded section and is formed as a nail. Element 2c is tapered. The device further comprises a positioning element 3c.

Claims 1-8, 10, 11 and 13-16 are rejected under 35 USC 102(b) as being anticipated by U.S. Patent No. 6,203,543 to Glossop. Glossop discloses in Figs. 2C-2D a fixing device. The entirety of Fig. 2C comprises the fixation element. The fixing device comprises guides 20, a shaft having a threaded section 22 and an intermediate/nail-like section (Fig. 1) and a head. A securing element in the form of a dial secures the positioning element 8. All of element 20 comprises an adjustable aligning device to which the positioning element 8 is fixed. As illustrated in Fig. 1, the positioning element is a reference star (column 3, lines 26-27).
